FYI

Please share this with others involved in our efforts. I am off-site today and stuck with the odd e-mail arrangement called "OWA Lite".

Subject: Notice of Proposed Regulatory Action-Second Generation Anticoagulant Rodenticides

The California Department of Pesticide Regulation (DPR) proposes to amend Title 3 California Code of Regulations (3 CCR) sections 6000 and 6400, and adopt section 6471. The proposed action would make all pesticide products containing the active ingredients brodifacoum, bromadiolone, difenacoum, or difethialone [second generation anticoagulant rodenticides (SGARs)] California-restricted materials; add additional use restrictions for SGARs; and revise the definition of private applicator to refer to the federal definition of agricultural commodity found in Title 40 Code of Federal Regulations section 171.2(5).

The Notice of Proposed Regulatory Action was published in Friday's California Regulatory Notice Register. Documents pertaining to this proposed regulatory action are available at <http://www.cdpr.ca.gov/docs/legbills/rulepkgs/13-002/13-002.htm>.

Please contact me if you have any questions.

Thank you,
Ann
